BLADDER AND KIDNEYS

Kidneys are the filterers of the blood. They filter the blood and purify it by natural process. When the Kidney begins to decline the body begins to die—Brights Disease—Diabetes—High Blood Pressure—Heart Troubles. The Kidneys may be seriously affected without the patient having any knowledge of the condition.

Is there a pain when Bladder is full?.....

Is there a pain on emptying the Bladder?.....

Is there a burning during or after urinating?.....

How often do you have to empty Bladder during the day? .....

How often do you have to empty Bladder during the night? .....

Is the urine clear?.....

Is the urine cloudy?.....

Is there a sediment in urine on standing?.....

In the neck muscles?.....

In the shoulders?.....

In the arms?.....

In the elbows?.....

In the wrists?.....

In the hands?.....

In the hips?.....

In the thighs?.....

In the knees?.....

In the calf of legs?.....

In the ankles?.....

In the feet?.....

DR. F. R. WARD, 241 W. 72ND ST., NEW YORK CITY

"On the PLAINS OF HESITATION bleach the bones of countless millions who, at the DAWN OF VICTORY, sat down to wait—and waiting, died."

HISTORY AND SYMPTOMS OF PATIENT (MALE)

Symptoms are very misleading and should not be considered as conclusive evidence of any certain ailment. It is only when these symptoms are considered in connection with other examinations of the patient that they have a bearing on the real ailment that is causing all the trouble. It is not good policy for the patient to personally decide on the nature of the ailment. As an example I might mention the many pains, aches and conditions of the head that may be caused by infections of some other organ of the body, and the location of the origin of the ailment may be far removed from the head.

In order to help you remember all the symptoms of your ill health I am sending you this blank. In the examination of a patient it happens sometimes that important symptoms are overlooked because they are not mentioned. By filling in this blank I will be certain to have all your symptoms in my record. Bring this with you when you call.

Please fill in answers carefully

Full Name .....

Street and Number .....

City ..... State.....

Married..... Single..... Widower.....

Age..... Weight..... Losing or gaining..... Occupation.....

How long have you been ailing.....How many doctors have treated you.....

For what ailment were you being treated.....

Have you any family history of Tuberculosis, Cancer or Insanity .....

Have you any history of Syphilis or other Venereal disease .....

Have you had your Blood Pressure taken.....High..... Low..... Normal.....

Have you had Analysis of Urine .....

Have you had an X-Ray examination of any part of the body .....

You may only have a few or you may have many of the symptoms mentioned. I would suggest that you go over the list very carefully, giving each question due consideration and answer each one. Do it now. Procrastination is not only the thief of time for it allows the insiduous disease to become strongly intrenched and may shorten life. Most of the questions can be answered by yes or no.

(See other pages for symptoms.)

NERVES

Nerves are the wireless system of the body. When any set of nerves are overworked they send a message to the brain. A wise man will heed this message. Excesses must stop—repairs must be made—otherwise wrecks will occur—nervous wrecks.

Do you feel nervous?.....

Do your hands tremble?.....

Do you sleep well at night?.....

Are you restless at night?.....

Do you dream at night?.....

Do you have a feeling of fear?.....

Is there a twitching of the muscles?.....

Is there a twitching of the eye lids?.....

Are you easily excited?.....

Are you easily angered?.....

Do you have hot flashes?.....

Is your memory poor?.....

Do your arms and legs "go to sleep"?.....

Are your hands and feet cold?.....

Do you have a tired feeling?.....

Do you feel a physical weakness?.....

Have you ever suffered with Nervous Prostration?.....

MALE PELVIC ORGANS

Inflammation of Prostatic Gland, Seminal Vesicles, Bladder and Urethra destroy that nervous energy and vitality necessary to robust manly health and strength. The cause is usually ignorance and folly.

Do you have Prostatic Trouble?.....

Is there difficulty in passing water?.....

Do you suffer from former excesses?.....

Have you an unnatural discharge?.....

Have you ever suffered with Nervous Debility?.....

Do you feel a loss of vitality?.....

Are you aware of any Organic weakness?.....

Do you feel any physical weakness?.....

Do you recognize any nerve weakness?.....

Describe any other private ailments?.....

HEAD

Head symptoms may mean a serious condition. Many of these symptoms are the result of congested Sinuses. Bad teeth are another cause. Catarrhal conditions of the nose, throat and ears may cause many symptoms. Adenoids in nasal passage and infected Tonsils cause much trouble.

Do you have frontal headaches?.....

Do you have pains in back of head?.....

Do you have noises in head?.....

Do you have earache?.....

Do you have discharge from ears?.....

Are you losing your hearing?.....

Do you "catch cold" easily?.....

Have you catarrh of the nose?.....

Do you have catarrh of the throat?.....

Are you subject to sore throat?.....

Have your tonsils been removed?.....

What is the condition of your teeth?.....

Are there black spots before the eyes?.....

Do you wear glasses?.....

Do you see well without glasses?.....

Are you dizzy?.....

Do you have attacks of vertigo?.....

Have you had any operation on nose, throat or head?

SKIN AILMENTS

There are many irritating and disfigurating diseases of the skin. The treatment of skin ailments demand the most thorough knowledge and careful attention. Hardly two cases can be considered alike.

Do you have any skin eruption?.....

Do you have Varicose Ulcers?.....

Do you have Eczema?.....

Do you have Lupus?.....

Do you have Pimples?.....

Do you have birthmarks?.....

Do you have rash on body?.....

Do you have Psoriasis?.....

Is there a redness of the skin?.....

Is there a roughness of the skin?.....

STOMACH

This much abused organ is subject to many of the most serious ailments of the human body. Ulcers, Cancers and Tumors attack the Stomach. At times the least distressing symptom is the only sign of a serious lesion.

Have you any pains in stomach?.....

When is it most severe?.....

How is the pain compared with eating?.....

Do you belch gas?.....

Do you have heartburn?.....

Do you vomit your food?.....

Do you have a sour taste in your mouth?.....

Is your tongue coated?.....

Is the breath offensive?.....

Do you have "sick headaches"?.....

Do you have billious attacks?.....

Does stomach bloat after eating?.....

Do you have distress after eating?.....

Do you have a hunger feeling?.....

Is appetite good or bad?.....

Do you have pains under lower right ribs?.....

Have you been told you have Liver trouble?.....

Have you been told you have Bladder trouble?.....

Ever have Ulcer or Cancer of Stomach?.....

Ever had an operation of the Stomach or Abdomen?

INTESTINES

The Intestines demand good drainage. Absorbtion of Toxic Intestinal Poisons is the cause of much human illness. Irritation and inflammation might cause Ulcer or Cancer.

Do you suffer with Constipation?.....

Do you have a Diarrhoeal condition?.....

Do you have pains in the bowels?.....

Do you pass gas by Rectum?.....

Has Appendix been removed?.....

Have you had other Intestinal operations?.....

Are you bothered with adhesions of Intestines?.....

CHEST

Coughing and pain in the Chest make us think of possible Tuberculosis. It is well for every one to be sure about the Lungs. An examination cannot be made too early. Discovery in the early stage is the only hope.

Do you have pains in the Chest or Lungs?.....

Do you have a cough?.....

When do you cough most?.....

Do you expectorate?.....

Do you have blood in sputum?.....

Have you had Hemorrhage of the Lungs?.....

Are you short of breath?.....

Do you have palpitation of the Heart?.....

Do you have pains with deep breathing?.....

Do you have a heavy sensation in the Chest?.....

Do you have night sweats?.....

Do you have attacks of Asthma?.....

Do you have attacks of Bronchitis?.....

Have you had the sputum examined?.....

Have you Tuberculosis?.....

HEART

We look upon the heart as the main force of life. It is the one body organ that cannot be removed nor replaced. Under proper care one can live long years even with a heart lesion. You must learn to live right.

Do you have pains around or under heart?.....

Do you have palpitation of the heart?.....

Do you have a nervous heart?.....

Is there a shortness of breath on exertion?.....

Is there a feeling of suffocation?.....

Do you have a dizzy sensation in the head?.....

Are your lips pale?.....

Are your finger tips blue?.....

Is your pulse irregular?.....

Have you ever been examined for your heart condition?.....

Were you told the nature of your trouble?.....
